Rural Kerb and Channel Spraying

Council proposes to carry out weed spraying on all rural roads in the district. Spraying will commence on Monday 15 May 2023.

Any areas that are defined as a "No Spray Zone" by the property owner will not be sprayed.

Weather permitting we anticipate this will take 6 weeks to complete.

Anyone who does not want their road frontage sprayed should contact Council on 06 765 6099.

Waste Levy Fund awards over \$24,000 to five new sustainable projects

Through our Waste Levy Fund, we've awarded **\$24,276 to five new local projects that will decrease the amount of waste going into landfill.**

The successful projects include school and communal composting and recycling systems, a community garden, reusable nappy education and recycling, and the establishment of a bi-monthly Repair Café.

The Waste Levy Fund received eight applications in the February 2023 funding round, requesting a total of \$57,000. Victoria Araba, SDC Director - Assets, says they were impressed with the quality of the applications overall.

"Our congratulations to the successful applicants. In their projects we saw a real commitment to sustainability and community, backed up with great planning," says Victoria.

"We'll receive reports on the progress of these projects and the measurable impacts they have on waste minimisation in our community over the next 12 months. We're excited to see the results!"

The Waste Levy Fund was created in November 2022 to support new activities that reduce the amount of waste going into landfill. The fund was created using money distributed to SDC through the Government's national waste disposal levy.

To be eligible for support, projects had to demonstrate avoidance, reduction, recycling, recovery or reuse of waste in the Stratford district. The 2023/24 funding round will open late 2023.

Waste Levy Fund recipients:

Stratford Community Childcare Centre

\$7,030 for new composting systems.

Avon Primary School

\$8,995 for the development of a garden and composting system for community use.

Pregnancy Help Stratford Branch

\$3,600 to develop reusable nappy education and recycling.

Stratford Repair Café Group

\$2,496 for the establishment of a bi-monthly Repair Café event in Stratford.

Stratford High School

\$3,120 for the installation of a recycling and composting system for unused school lunches.
