- Project promotes or achieves waste minimisation (avoid, reduction, reuse, recycling, and/or recovery) and is consistent with Stratford District Council's (SDC) Waste Management and Minimisation Plan (WMMP)
- Project provides benefits to the present and future needs of the district
- Project results in new waste minimisation activity (new initiative or expansion of existing)
- Funding is not for ongoing financial support of existing activities or running costs
- Project is for a definite timeframe (one financial year maximum)
- Funding can be used for operational or capital expenditure

PROJECT DETAILS

Project name

Project type

Waste Reduction to landfill project

Resource Recovery Improvement Project

Project duration

Waste stream

Packaging

Construction and Demolition

Organic

Tyres

Plastics

Hazardous

E-waste

Other (please specify)

OBJECTIVES

List high level objectives and how these will be achieved

Please attach a project plan (required) showing when key milestones will be achieved and any other contributors.

WASTE DIVERSION POTENTIAL

How much waste does your project propose to avoid, reduce, reuse, recycle or recover?

How will this be measured?

How does your project promote or achieve waste minimisation? What are the specific benefits?

COMMUNITY

Will your project promote waste minimisation to the wider public – if so, how?

SIMILAR ACTIVITIES

Are you aware of any similar waste minimisation activities in your district?

FUNDING REQUIREMENTS

What is the total cost of your project? (Please attach proof of costs)

What portion would you like to be funded from the Waste Levy?

What are your other funding sources? Please list who is providing funding and the funding amount.
